Third Eye

Signed & Numbered Serigraph

Crumb's Third Eye self-portrait is now finished and released. Using 16 colors (and 16 screens) to recreate Crumb's water-color rough, Wildwood Serigraphs has created a beautifully subtle serigraph edition as unique as Robert's artwork and humor. A must for anyone who can laugh along with Crumb at himself. But there's an underlying mystic force here -- wait until you read the Certificate of Authenticity!

Edition of 110, each print signed, numbered and dated by Crumb. Cream paper size is 14.5 x 12 inches; image size is 12 x 9 inches.

THE BOOK OF GENESIS, ILLUSTRATED BY R. CRUMB

Crumb's detailed and historically accurate rendering of "The Book of Genesis" took over four years to complete, and the results are astonishingly intricate and beautifully illustrated. Every word of the first book of The Bible is included (and hand-lettered).

"Far removed from the satirical reimagining some might expect from the father of underground comix, Crumb's long-awaited take on the first book of the Bible presents the artist's own sensitive, visually intense reflections." -- Publisher's Weekly

"A beautifully drawn and relentlessly faithful rendition of the first 50 chapters of the Bible... Crumb has produced what could be the ultimate graphic novel." -- USA Today

Published by W.W. Norton & Company in a hardcover edition, 224 pages, 8.8 " x 11.2", the book is in stock and available for \$25, and ships within 24 hours.

(Domestic shipping via USPS Media Mail \$5, international shipping \$24.)

Spring 2010

Robert and Aline visited America for the month of March. They're back in France now, helping Sophie finalize her new book, *Sophie Crumb: The Evolution of a Crazy Artist*. It will be published and released by WW Norton this year. Robert intends to finish some small jobs that have been piling up, then he and Aline will concentrate on a book they've been planning to do together for years now.

The Blues Project, part 2

The next print to be produced by Robert Crumb and Wildwood Serigraphs will be a limited-edition serigraph based on Robert's *Heroes of the Blues* card set. We intend to keep you posted, step-by-step, through the process of creating this unique edition. Alex reports from Wildwood Serigraphs:

"Since the original art for the cards is unavailable, we need to work with the printed cards. The first step in the long process of creating our serigraph is scanning the cards, cleaning the scans, and deleting the color. Since the cards were printed in a small size, much detail was lost that will need to be restored for our print. Once I have the cleanest possible black line images, I enlarge them and print them out on bristol board at high resolution. I send these printouts to France, where Robert reworks them by hand. He whites out areas that have gotten too dark, and adds black detail and cross-hatching. Robert then sends back the retouched art with color instructions. He has chosen to alter the colors on almost every card. We are reproducing 25 of the Blues Cards for the print, and are now about halfway through this first step."

Our next posting will include pictures of Crumb reworking the cards. The second step in the process will be color separating (adding the color back to the images for print preparation). Stay tuned for further updates!
